#### **Significant exclusions and limitations of this policy**

This section covers the significant exclusions and limitations of all the benefits available to the policy. Please note that your policy may not include all of the benefits below:

- An **incident** under this policy is considered to be an onset of symptoms or the occurrence of any illness, disease, lameness, injury, accident or physical disability and is not judged by each separately diagnosed condition.

All health conditions diagnosed, or related to this occurrence or onset of symptoms, whether immediately or on subsequent investigation are considered to be one **incident**.

When determining if multiple conditions should be considered as a single **incident**, **we** will adopt the principle that if these conditions are either directly or indirectly related, or if veterinary opinion considers there to be a causal relationship between them, all the conditions will be considered as a single **incident** for the purposes of the **claim**. If there is a difference of opinion between **your veterinary surgeon** and **our veterinary surgeon** regarding the relation between multiple conditions the Arbitration Clause will be invoked.

- The **horse** must be covered in the correct class of use for the activities that it is taking part in. Failure to insure in the correct class may result in a claim being denied. The classes of use are shown in the table below and in your terms and conditions. (general policy condition 5(b)).
- **You** should be the sole owner of **your horse**; if **you** loan the **horse** from somebody else, you must advise **us** of the owner's name and send **us** a copy of the loan agreement. If **your horse** is on loan to someone else **you** must advise **us** and send **us** a copy of the loan agreement. (General Policy Conditions 2, 3 & 4)

If, at any reassessment, the gastric ulceration is found to have resolved below Grade 2 on the LSS, all coverage under this Section will cease (section 3, conditions applicable to veterinary fee claims for EGUS, condition 2).
- If the **horse** is exhibiting clinical symptoms of **equine gastric ulcer syndrome** (EGUS) and **your veterinary surgeon** recommends a short-term treatment protocol as a preferred diagnostic procedure over gastroscopy for reasons inherent in the **horse**, **we** will pay for proton pump inhibitor **medication** for a maximum of 15 days without requiring a gastroscopic evaluation (section 3, conditions applicable to veterinary fee claims for EGUS, condition 3).
- The cost of treatment for **equine gastric ulcer syndrome** if diagnosed as grade 1 severity (section 3, exclusions applicable to veterinary fee claims for equine gastric ulcer syndrome, exclusion 15).
